Being Beheld By God

An opportunity to spend time with Julian of Norwich

LEADER: The Rev. Dr. Holly Ratcliffe has spent years fathoming the psychology, the spiritual dynamics and the theology of Julian of Norwich, a holy woman of 14th century England.

CONTENT: Julian's experience of "being beheld by God" is the key to her spirituality and her theology. We will learn how this original theology sprang from the rich devotional traditions of the late middle ages, which helped her make sense of challenging life experiences. Julian's message rings fresh for us today. Our time together will include individual meditations
